PRODUCT NAME:	KetoseSweet 100
ICON FOODS PRODUCT CODE NUMBER:	2109
DESCRIPTION:	Icon Foods KetoseSweet 100 is a natural, low-calorie sugar. KetoseSweet 100 is a monosaccharide, or simple sugar, and is found in nature in fruits such as raisins, figs, kiwis and jack fruit. Unlike other natural and synthetic sweeteners in the marketplace, KetoseSweet 100 tastes and functions like sugar because it is a sugar, but contains almost zero calories while suppressing glycemic response. With less than 10% of the calories of sucrose, KetoseSweet 100 provides a clean, satisfying sweetness to any drink mix, bakery, frozen food, confectionary of dairy application. KetoseSweet 100 is complementary and works in synergy with other sweeteners to create low-calorie, cost effective sweeteners systems. KetoseSweet 100 is recognized by the body as a simple sugar and is absorbed accordingly; however, clinical studies confirm that it is not metabolized and has no impact on blood glucose levels. Exhibiting a mouth-feel similar to table sugar, KetoseSweet 100 should be a staple “go to” ingredient within the research and development group of any company affiliated with food and beverage.
