PRODUCT NAME:	KetoseSweet Ultra
ICON FOODS PRODUCT CODE NUMBER:	2113
DESCRIPTION:	Icon Foods KetoseSweet Ultra is a natural, low-calorie sugar. KetoseSweet Ultra is a monosaccharide, or simple sugar, and is found in nature in fruits such as raisins, figs, kiwis and jack fruit. Unlike other natural and synthetic sweeteners in the marketplace, KetoseSweet Ultra tastes and functions like sugar because it is a sugar, but contains almost zero calories while suppressing glycemic response. With less than 10% of the calories of sucrose, KetoseSweet Ultra provides a clean, satisfying sweetness to any drink mix, bakery, frozen food, confectionary of dairy application. KetoseSweet Ultra is complementary and works in synergy with other sweeteners to create low-calorie, cost effective sweeteners systems. KetoseSweet Ultra is recognized by the body as a simple sugar and is absorbed accordingly; however, clinical studies confirm that it is not metabolized and has no impact on blood glucose levels. Exhibiting a mouth-feel similar to table sugar, KetoseSweet Ultra should be a staple “go to” ingredient within the research and development group of any company affiliated with food and beverage.
